

APPROVAL OF BACHELOR'S THESIS TOPIC

For majors Engineering Physics and Mathematics and Systems Sciences

PERSONAL DATA

Full name	Student number
E-mail address	Telephone number

Bachelor's thesis:

The bachelor's thesis is written on a topic related to the student's major. The student agrees on the topic with a thesis advisor appointed by the Professor in charge of the major. If the advisor is not from either the Department of Applied Physics or Department of Mathematics and Systems Analysis, the topic has to be approved by the Professor in charge of the major.

Major
Minor

Your personal study plan (HOPS) must be approved before you can apply for the approval of topic.

BACHELOR'S THESIS

Topic (name) of the thesis in the language the thesis is written
Professor in charge of the major
Thesis advisor (degree, name, place of work)

The student and thesis advisor have agreed on the topic and goals of the bachelor's thesis in a meeting on

____.____. 20____

Signature of advisor

Signature of applicant

If the advisor is not from either the Department of Applied Physics or Department of Mathematics and Systems Analysis, the topic has to be approved by the Professor in charge of the major.

Signature of the Professor

Submit the form to the student services of students of engineering physics and mathematics (P.O.Box 15400, address Konemiehentie 2, room B158).
