News

Master’s theses and final projects no longer need to be submitted in hardbound copies

Until now, students have been required to submit two hardbound copies of their Master’s theses to the Students Services at the time of applying for the approval of their theses. This practice, however, is now discontinued and no hardbound copies need to be submitted any longer. In other words, as you apply for the approval of your thesis in eAge system, digital copy of your thesis attached to the online application form is sufficient.

This also applies to the exchange students’ final projects. You only have to submit the electronic version of the project in eAge, and no hardbound copies need to be submitted.

New course Engineering for Humans begins in teaching period V

Are you interested in human factors, ergonomics, errors, and design? If yes, enroll in the course ELEC-D7010 Engineering for Humans that starts in teaching period V. Registration is ongoing on Weboodi. The course is optional.

Places still available for students in LC-1114 Communicating Technology (o + w)

Are your compulsory language studies still waiting to be completed? Here’s the last chance in teaching period V before the summer! The course LC-1114 Communicating Technology (o + w) has places still available:

H11 - from 11 April to 13 June, Wednesdays from 9 am to 12.15. Registration is ongoing on Weboodi until 9 April.

International exchange students are also welcome!

Summer courses for Aalto students

Check the summer courses for Aalto students. The page is updating. See also the courses which are open to participants outside from Aalto.

Study at Aalto University Open University in the summer 2018

Courses at Aalto University Open University for the summer 2018 have been published. Especially a large selection of Finnish language courses are available in different levels. Registration starts on 10 April at 12 pm. Aalto University degree students pay the same fee as everyone else: €15/credit at the most.

Speakers:

- Professor Anouar Belachen: What is Master's thesis at ELEC and how to get your Master's thesis started
- Lecturer Ken Pennington (Language Centre): How to structure and write your thesis

Piece of advice for students

Student, have you encountered inappropriate treatment or harassment?

Aalto University expects its members of the community to act responsibly and treat others with respect. Any inappropriate treatment, harassment or bullying is prohibited.

Inappropriate treatment is behaviour that violates commonly understood principles of good practice, or is inappropriate or disturbing. This includes causing offence by actions, word or attitude. Inappropriate treatment may also take the form of sexual harassment, which may be physical or verbal.

For more information on what steps to take in case of encountering inappropriate treatment and who to contact, please see the Into page on the topic.
