The Master's Programme in Automation and Electrical Engineering contains three (3) majors:

- Control, Robotics and Autonomous Systems
- Electrical Power and Energy Engineering
- Translational Engineering

The Master of Science degree consists of 120 ECTS and is recommended to be completed within two years of full-time studies.

You will find study tracks and recommended study schedules under Planning your studies.

This website is mainly aimed at the students of the programme. The site contains the student study guide for the master's programme with materials and instructions on all the majors available in the programme. Here you will find the programme curriculum as well as detailed guidelines for planning your studies.

If you are thinking about applying for the programme, please see Automation and Electrical Engineering and studies.aalto.fi.
