Main application period for the academic year 2019-2020

Most of the exchange student places for the next academic year are open for applications during the main round for application in January 2019. Please note the new application period 10-31.1.2019. During this January main application round you can apply for exchange for autumn 2019, spring 2020 or academic year 2019-2020. Exchange destinations: Destination Database. How to apply: check Into-pages.

Coffee and cake for good study progress

Students are encouraged to graduate on schedule. CHEM encourages its students e.g. by taking advantage of academic advising and personal discussions, and on the hand wants to thank students who have proceeded very well in their studies. On 25 October 2018, a coffee get-together was held for students completing 55 or more credits within the previous academic year. Tapani Vuorinen, Vice Dean in Learning and Teaching of the School of Chemical Engineering hosted the event.

News

Scholarship for a graduation in desired time

From 2018, CHEM offers scholarship to those students who complete their studies on time. The award is 500 €. Until today, the scholarship has been granted to 29 students, congratulations to all of them!

The first to receive the scholarship was Villiina Ikäheimo. You can find her interview in Eetteri:

CHEM Career Forum in December

INTO – the most important source of information for your studies

Dear student, you have probably noticed that the Into-pages have been renewed in the spring. You can find the information regarding studies under your own programme.

FiTech network university offers selected study modules taught at
Starting Point of Wellbeing

Starting Point of Wellbeing opening on September 10th! The Starting Point of Wellbeing offers students advice and guidance on services related to wellbeing. More from INTO: https://into.aalto.fi/display/enopisk/Starting+Point+of+Wellbeing

Credit transfer as of 1 August

Instructions for credit transfer have been renewed on 1 August 2018. More information can be found here: https://into.aalto.fi/display/enopisk/Credit+transfer

New guidelines for Master's thesis

The new guidelines for the Master’s thesis are designed to clarify the thesis process, describe the learning outcomes more clearly and define the roles of the supervisor and advisor.

The guidelines can be found in Into: https://into.aalto.fi/display/encbme/Completing+your+Master%27s+thesis

international team. By planning your exchange well you make sure it advances your degree studies.

Welcome to info session on Tuesday 11 September 2018, at 14—16, lecture hall TU5 (street address Maarintie 8)!

Please read more about student exchange from INTO. There you can find a list of all available exchange places. You can also ask more from the study advisor of exchange studies (kv-neuvoja-chem(at)aalto.fi) or from the exchange coordinators (international-chem(at)aalto.fi).

Finland’s technical universities in one handy place

As an Aalto University student you might want to choose a new minor subject or a single course offered by another technical university. See more: https://into.aalto.fi/pages/viewpage.action?pageId=7164036

Aalto University School of Chemical Engineering grants every year scholarships for successful students

The scholarships are awarded by Alexander and Lucie Lampén Fund, Oiva Allan Pölkkynen Fund and Teknos-Winter Fund. This year the School of Chemical Engineering also wanted to reward talented international students with scholarships.

36 applications were submitted this year, and 32 scholarships with the value of 1000 or 2000 euros were granted in the summer 2018. Congratulations to all!

The next application time for scholarships is in May 2019.
