

Environmental Engineering

The **eNviro5Tech** joint MSc degree creates the most comprehensive degree in Environmental Engineering in the world. The **eNviro5Tech** MSc is offered by the **Nordic Five Tech**, a strategic alliance of the five strongest technical universities in the Nordic region, with partners in Denmark (**DTU**), Sweden (**KTH**, **Chalmers University of Technology**), Norway (**NTNU**) and Finland (**Aalto University**). The program involves a set of 5 predefined study tracks leading to double degrees in Environmental Engineering. The program strengthens capacities in established areas such as Urban Hydrology, Water Supply and Waste Water Management and offers a brand new focus, namely in Environmental Informatics.

More about the study tracks offered can be read [here](#).
