

# How to apply

## Prospective graduate students

If you are a prospective graduate student, you can apply to this programme. Please see the [application information page](#) for application dead-lines, on-line forms and general information.

## Bachelor's degree in the field of technology at Aalto University (students who began their studies on or after 1 August 2016)

If you have completed a bachelor's programme at Aalto University in the field of technology, you can continue your studies at master level in this programme without any prerequisites.

Students graduating from the Bachelor's Programme in the field of technology choose their master's programme and major at the time of graduation.

## Bachelor's degree in the field of technology at Aalto University (students who began their studies before 1 August 2016)

Students graduating from the Bachelor's Programme in Science and Technology can continue their studies at master level in this programme without any prerequisites. Students choose their master's programme and major at the time of graduation.

If you have completed your BSc degree in some other Bachelor's programme than Bachelor's Programme in Science and Technology at Aalto University, apply to the programme. Please see the [application information page](#) for application dead-lines, on-line forms and general information.

## Bachelor's degree in the field of Art and Design or in the field of Business at Aalto University

Those having received their Bachelor's degree from Aalto University in other fields than in the field of technology, are considered to be prospective graduate students. Please see the [application information page](#) for application dead-lines, on-line forms and general information.
