## Transcript of records and certificate of student status

The electronic transcript of records and certificate of student status are PDF documents equipped with a digital signature to confirm their authenticity and integrity. The digital signature replaces handwritten signatures and stamps.

The electronic transcript of records/ certificate of student status may be ordered through WebOodi. The file will be ready for downloading to your device about 15 minutes after placing the order.

Electronic documents are official only in their digital form and not as paper-printed copies, for example. They can not be modified, as any change made to the file invalidates the digital signature. [Electronic document and how to check it's validity](#) (pdf)

The electronic transcript/certificate should be a valid alternative in all situations where signed and stamped paper documents are used. Whatever the transaction, if the party concerned does not accept your digitally signed document, you may request a signed and stamped paper document from an Aalto student services desk.
