

Fashion, Clothing and Textile Design

Master's Programme in Fashion, Clothing and Textile Design The programme deepens or extends the students' skills in fashion, clothing and textile design on a high artistic and professional level, strategic thinking as well as creating fashion concepts coordinating and leading design processes. Students develop their creative vision and management skills for fashion, clothing, textile and collection design. The design process includes the whole path from concept and initial design to marketing and sales. Creativity and new forward-thinking ideas are emphasized on every step of the process. At the core of the programme is the understanding of the industry and fashion system and its impact on environment, society and business. Basic and applied understanding of sustainable issues in fashion and textile areas are provided. Students are challenged to explore multidisciplinary collaboration and possibilities of new technologies, new materials and innovative design solutions.
