

# Space Science and Technology

SpaceMaster is a Erasmus Mundus Master's Degree Programme in Space Science and Technology that is being served by 6 top European universities. The main objective of the programme is to combine the great diversity of space expertise at six European universities and two Third-Country universities to a common platform of competence within the guidelines of the Bologna process. Programme contents is shortly described in [http://www.aalto.fi/en/studies/education/programme/spacemaster\\_master/](http://www.aalto.fi/en/studies/education/programme/spacemaster_master/), and more administrative information about the whole program including instructions for perspective students can be found at <http://www.spacemaster.eu>.

This web-site is the local SpaceMaster - web-page designed to give information about the SpaceMaster's 2nd year studies at the Department of Electrical Engineering and Automation at Aalto University School of Electrical Engineering (Aalto ELEC). The site contains the student study guide for the master's programme. Here you will find the programme curriculum as well as detailed guidelines for planning your studies.

Apart from the SpaceMaster-programme, Space Science and Technology can be studied as a major in the [Master's Programme in Electronics and Nanotechnology](#).
