

# Minor studies 2018-2020

A minor subject of 20–25 credits is a compulsory part of a bachelor's degree. The combined extent of the minor (20–25 cr) and the elective studies (25–30 cr) is 50 cr. The minor is confirmed in the students personal study plan (HOPS). It is possible to choose a minor within Aalto University, from another Finnish university through the Flexible Study Right (JOO) agreement or from university abroad during a student exchange.

Minor subjects offered by the different disciplines at Aalto University are listed here [Minors 2018-2020](#).

Currently, minors that are offered in English and are suitable for bachelor's level students include the following:

- [AaltoNAUT](#) (School of ENG)
