

# Career planning

The School provides education for a wide range of responsible future professionals. M.Sc(Tech) and D.Sc(Tech) graduates in technology work in diverse positions in Finland's largest industrial sectors, in the metal and electronics industry, wood processing industries as well as chemical, pharmaceutical, biotechnology and food industries. The research and teaching are supported by an extensive international academic and industrial cooperation network.

For advice in career planning, check out [Aalto CareerWeb](#) and [Study and Career Psychologist Services](#).
