Starting your studies

After admission

After receiving the letter of admission, remember to take care of all the practicalities: After admission to Master's studies.

The studies begin with an orientation week in the beginning of the first autumn term. Please read more about <u>Getting started with your studies</u> and also take a look at the guide for international students.

Orientation 2019

The studies begin with an orientation week starting on Monday 2 September 2019. All new students should participate in all the orientation week events.
