

Career planning

Career planning is part of the studies at the Aalto University. As there are different career options depending on your programme, in Aalto ARTS career planning is discussed in personal study plans. Professors and coordinators of each programme can give you more information on this. Ask more info from your professors and/or study coordinator.

Please see also [Aalto Career Web](#) for more information for example, on internships and [job hunting](#).

The graduates have the skills and knowledge needed to sustain a professional career in fashion, clothing, textile and design business and industry, media and education. The master studies prepare the students for a career in academic as well as corporate research.
