

Starting your studies

After admission

After receiving the letter of admission, remember to take care of all the practicalities: [After admission to Master's studies](#).

The studies begin with an orientation week in the beginning of the first autumn term. Please read more about [Getting started with your studies](#) and also take a look at [the guide for international students](#).

Orientation 2019

The studies begin with an orientation week starting on **Monday 2 September 2019**. All new students should participate in all the orientation week events.
