

# Urban Studies and Planning

The Master's Programme in Urban Studies and Planning prepares students to excel as professionals capable of understanding and addressing complex urban development challenges. Students learn to address such challenges through a curriculum and pedagogical approach that includes interdisciplinary breadth as well as depth in core areas of knowledge, skill and practice. The programme started in autumn 2017 as a joint programme of the University of Helsinki and Aalto University. There are two schools participating from Aalto: School of Arts, Design and Architecture and School of Engineering.
