Content and structure of the minor

International Studies Minor consists of courses, which are relevant to student’s degree at Aalto University and which are completed during the student exchange abroad. International Studies Minor is a strong and visible unit of international dimension in a student’s degree.

In addition to the professional content of the minor, module aims to produce knowledge and practical skills in languages and intercultural competence.

International studies minor consists of 15-30 credits and it can be a minor either in Bachelor’s or Master’s degree. It may include other than the student’s major subject studies, as well as the host country language and cultural studies and it can be interdisciplinary by its nature. Terms and conditions of Aalto University student exchange applies.

Minimum requirement to gain the International Studies minor status:

- Credits: 15–30 cr
- Minimum requirement for studies completed during the exchange: 10 credits
- Maximum requirement for language and cultural studies completed in at Aalto University 5 credits
- Traineeship abroad can be considered a way of completing the module (max 5 credits)
